I have also designed a category management system where we can easily add customized category and subcategory for subscription and books genre

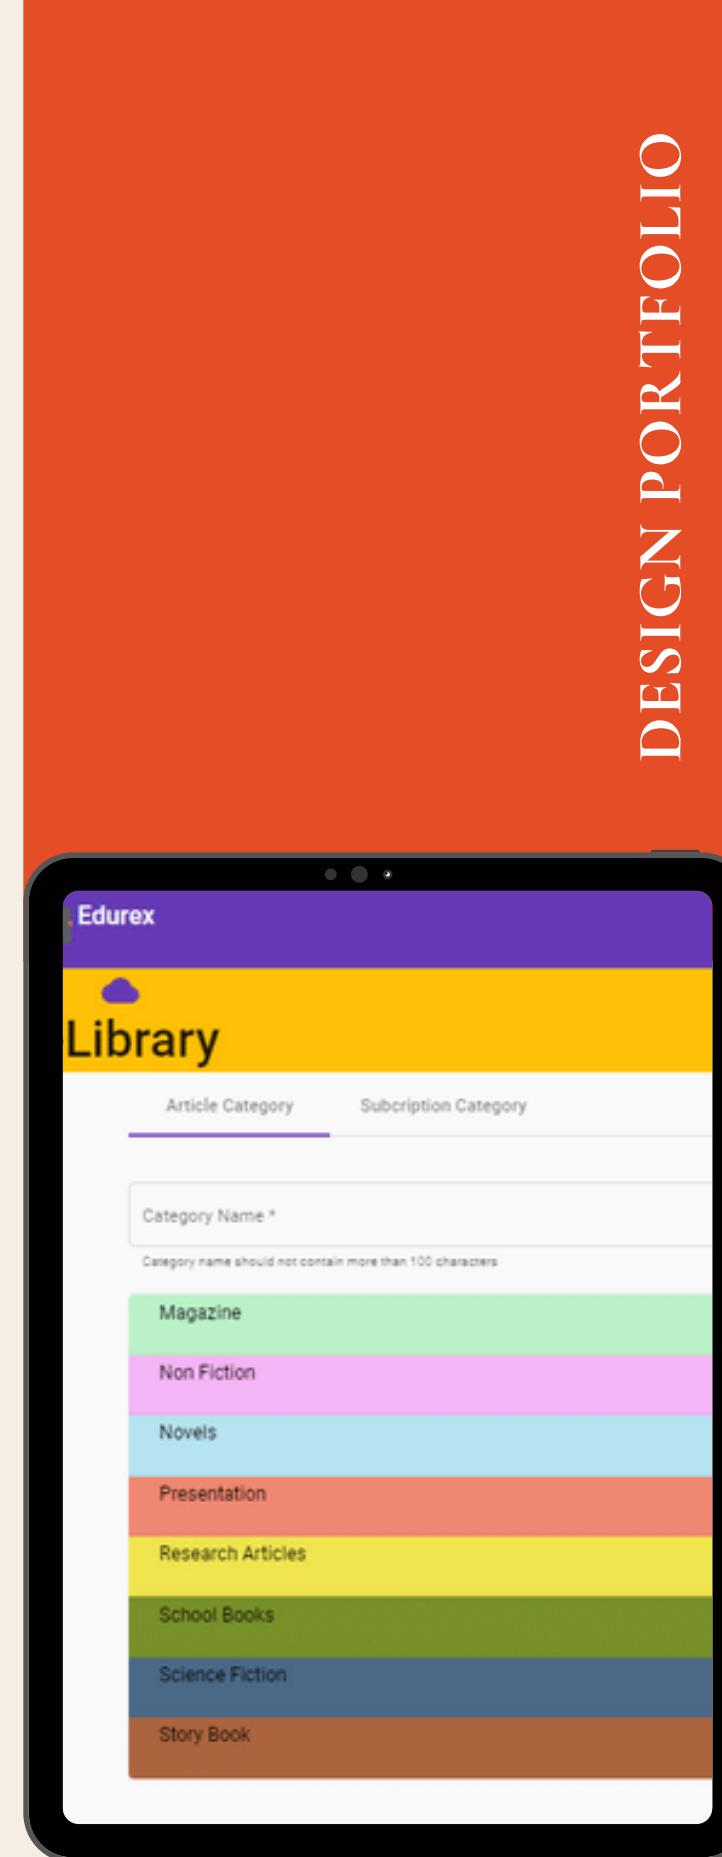

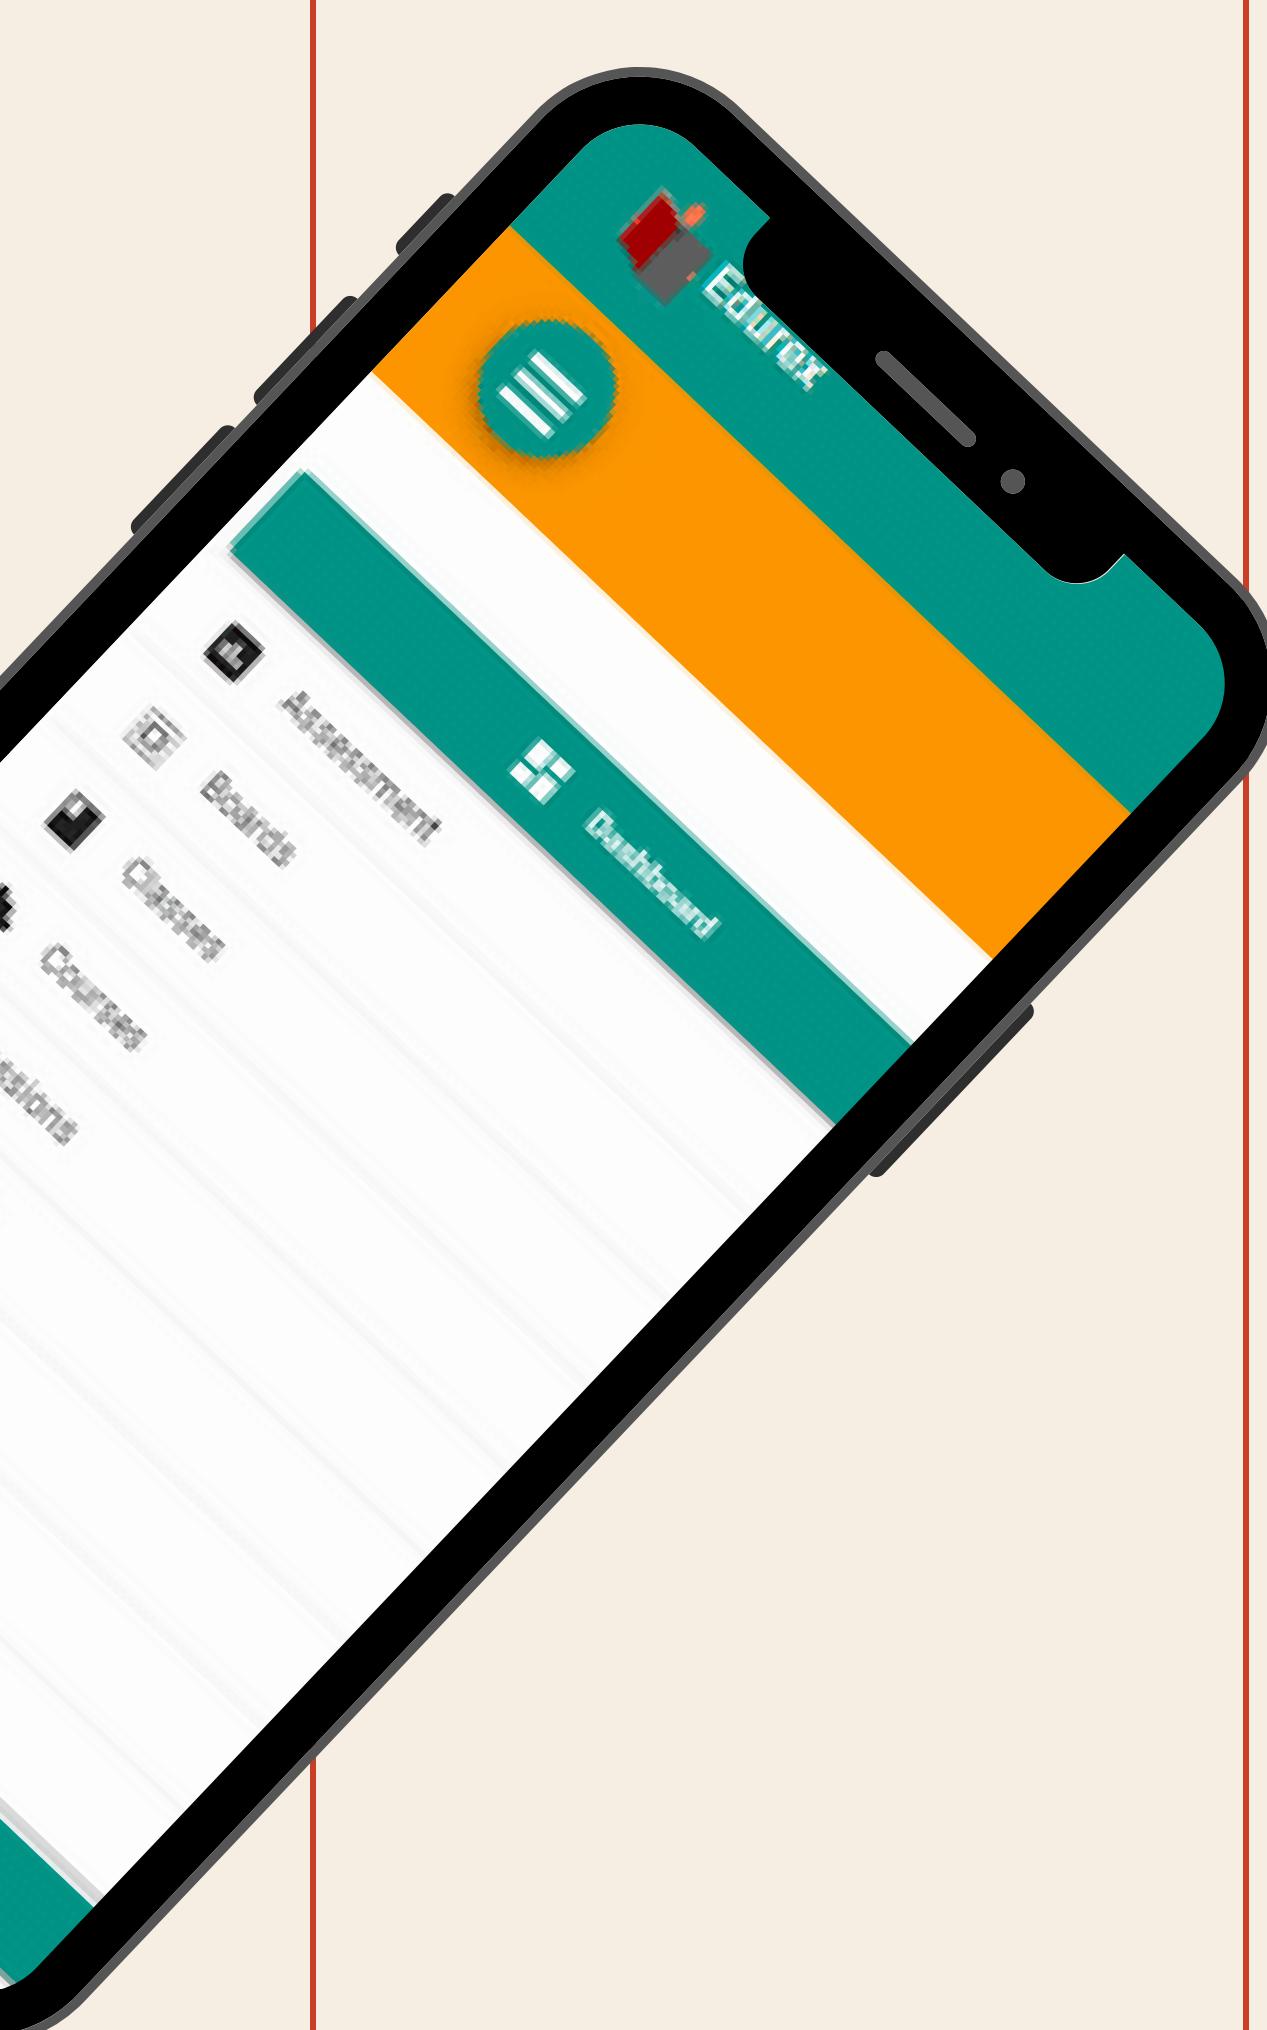

Edurex has an integrated e-library where we can upload documents category wise.

We can create subcategory under each category. It made user freindly . On can add a new sub category just by expanding a category and add new sub category name.

MY ABSTRACT MIND PLACE

This Project shows the outcome of some of my many abstract ideas which keeps on playing in my mind place.I would like to expose my ideas in more versatile manner and enclosed them in my canvas.All kinds of input are welcome.

MUKTI (Freedom)- We are standing in such a period where Humans are the most dangerous threat to mother earth. In the pic MUKTI(Freedom) the sad lady has been depicted as mother earth who is being continuously pulled down by evil spirits like global warming and pollution. Hence she is crying out to get freedom from such evil spirits. She desire is to worm a blanket of beautiful nature once more.

Medium Use : Oil Painting

Year : 2016

KALPANA(Imagination) -
The greatest burden we
carry is our imagination
which create expectations
and that result in holding
our emotions in a cage of
thrones.

Medium Used : Soft Pastel
Year - 2017

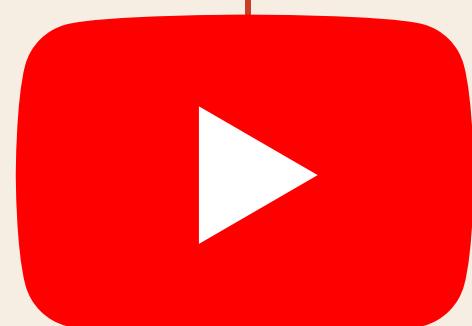

PORICHITI(The Identity) - We are living in the conundrum of caste, creed, language, religion.

To which latest addition is social media. In midst of this great puzzle we are loosing our emotions and hence our self identity. This will make our near future cry to seek their own identity.
